

SONOMA CAST STONE
PRE-CAST SOAKING TUBS
IN EARTHCRETE™ RECYCLED CONCRETE

EarthCrete™

RECYCLED CONCRETE FROM SONOMA CAST STONE

‘EarthCrete™ **recycled concrete** takes from the landfill, not the land. It also happens to be the finest concrete on earth.’

sonomastone.com/earthcrete

WHY CONCRETE ? ...IS BETTER THAN GRANITE

- Colors and textures far beyond granite.
- Conforms to virtually any shape you like.
- Accepts embedded materials.
- Exudes a warm and organic ambience.
- Has legendary strength and durability.
- Can appear as soft as a pillow.
- No health issues with Radon Gas.

WHY EARTHCRETE™ ? ...IS THE BEST CONCRETE ON EARTH

- All the virtues of the finest concrete, plus:
- EarthCrete™ is environmentally-sustainable.
- Guaranteed stain-free countertop surfaces.
- Makes larger pieces without seams or joints.
- Harder & stronger than classic concrete.
- Much lighter in weight, cheaper to ship.
- Cheaper to buy, cheaper to install.

Environmentally Sustainable

- 64.5 % recycled content, qualifying for points in LEED projects.
- 60% less Portland cement than standard thickness wet-cast.
- Countertops can weigh up to 75% less than standard-thickness, wet-cast, reducing the carbon output in both manufacturing and shipping.
- 100% recycled sand, No river rock and No river and/or delta sand.

Better Than Traditional Concrete

- Colors are more controllable.
- You can have more than one color in one piece.
- There are almost no air pockets.
- Get longer sections without seams.

Products Are Made Faster

- No more steel re-bar construction
- Simplified form-making.
- No need to grout over air pockets.
- Much less curing time is required.

Less Expensive

- Less material and less factory space.
- Less manufacturing time, easier form-making.
- Less weight means reduced shipping and installation costs.

THE DOUBLE WAVE TUB

This Tub is Even Comfortable Without Water

A half-hour in any of our soaking tubs will restore sanity after even the most hectic day. Cast in recycled EarthCrete™ concrete in your choice of 24 colors, or in a new MetalCrete™ finish of copper, nickel, bronze, iron or pewter. Our constant heat system keeps the tub, the water and you warm indefinitely... for those days you just don't want to get out.

The soft contour stops you from slipping down and cradles any body shape into the most delicious and relaxing soak of your life. Other sizes and custom shapes are available. Tub fillers by Sonoma Forge are designed for this and our other tubs.

THE URBAN CUBE WAVE TUB

The same, soothing contours of our WaveTub - and WaveSinks, but with a squared-off body line that brings an urban, industrialchic impact. These tubs are all pre-cast in genuine EarthCrete™ concrete, and when you're soaking in one, you'll have the truly unique sensation of sitting in a vessel of solid stone. Also available with the optional, embedded heating coil to maintain water temperature indefinitely and also roomy enough for two.

Available finishes now include MetalCrete, genuine pewter, bronze, steel or copper, permanently plated to your tub.
