• DESCRIPTION • FACTS

Pre-cast concrete pavers with pillowed top profile to replicate old world charm of a time worn pathway. Nines sizes create a random pattern with one of two pillow sizes (1/8" or 3/8") in two standard color blends.

Custom colors also available. All sizes and colors are equally combined on each pallet for ease of installation.

Sizes not available individually. See previous page for available sizes. Suitable for pedestrian traffic using sand bed installation or over concrete substrate. For vehicular traffic, pavers must be applied to a concrete substrate. It is important to note that control joints in the substrate should not be bridged by the pavers.

Refer to Tile Accessory page for pieces that compliment these tiles (p25).
