• DESCRIPTION

Pre-cast concrete tiles similar to our MetalCrete tiles but without the laser cut stainless steel overlay.

Sold in sets of 16.

Custom designs available with any pattern or even a company logo in larger sizes up to 48″ widths (thicknesses vary with size).

Refer to Tile Accessory page for pieces that compliment these tiles.

• FACTS

Tiles come in Classic Concrete in a mold release finish. As the term implies, tiles are "as is" when released from their molds.

Optionally: tile is acid-etched with the squares diamond polished.

Tiles are not diamond-sanded, sealed and waxed.

Tiles are currently not available Stainless Nucrete™.

24 standard colors. See: www.sonomastone.com, catalog or techbinder. Custom colors available. Order samples online, or call 877-283-2400 x113.

Tiles are unfinished and unsealed. Sealing by installer.

Thin-set mortar can be used to install tiles to solid, level substrate.

Individual patterns may be custom-ordered at special prices.
