• DESCRIPTION

Pre-cast concrete tile with a tumbled texture, our TumbleTile molds have a large variety of patterns and textures. So many, that they look as though each is unique and have been pulled from an old Cotswold cottage.

We often stock a variety of four colors that are designed to match the more natural tones.

Matching half-round edged border tile and corner tile are also available.

Refer to Tile Accessory page for pieces that compliment these tiles (p25).

• FACTS

Tiles come in Classic Concrete in a mold release finish. As the term implies, tiles are "as is" when released from their molds.

Tiles are not diamond-sanded, sealed and waxed.

Tiles are currently not available Stainless NuCrete™.

24 standard colors. See: www.sonomastone.com, catalog or techbinder. Custom colors available. Order samples online, or call 877-283-2400 x113.

Tiles are unfinished and unsealed. Sealing by installer.

Thin-set mortar can be used to install tiles to solid, level substrate.
