Tile • TwoTwelve

TwoTwelve is a 12" x 12" Tile Scored into 2" Squares
Also available as a ThreeTwelve - in 3" Squares

Designs ©2007 Sonoma Cast Stone Corp. All rights reserved.

Visit www.sonomastone.com to see photos of this and other products.

• DESCRIPTION

Pre-cast concrete tile 12 inches square, is scored every two inches giving the appearance of a large application composed of many 2 inch squares. Creates wonderful urban look perfect for lofts and contemporary spaces. For a subtle wall, a neutral grout color is advised. For a dramatic "sock-it-to-me" modern wall, the grout color may be altered for high contrast. May be used on wall or floor. Refer to Tile Accessory page for pieces that compliment these tiles (p25).

• FACTS

Tiles come in Classic Concrete in a mold release finish. As the term implies, tiles are "as is" when released from their molds. Tiles are not diamond-sanded, sealed and waxed. Tiles are currently not available Stainless NuCrete™. 24 standard colors. See: www.sonomastone.com, catalog or techbinder. Custom colors available. Order samples online, or call 877-283-2400 x113. Tiles are unfinished and unsealed. Sealing by installer. Thin-set mortar can be used to install tiles to solid, level substrate.
